MEMORANDUM

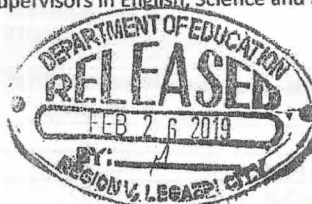

To : **Schools Division Superintendents**
 Attention: Education Program Supervisors in English, Science and Mathematics

From : 
GILBERT T. SADSAD
 Director III
 Officer In-Charge
 Office of the Regional Director

Subject : **KEEPING THE PHILIPPINES COMPETITIVE IN ENGLISH (A Joint Project of the US Embassy and the Department of Education)**

Date : 23 February 2019

003103

1. Region V had been selected, along with three other regions in the entire Philippines, to take part in the collaborative project between the Public Affairs Section of the US Embassy in the Philippines and the Department of Education dubbed as *Keeping the Philippines Competitive in English*. The project aims to provide teacher-multipliers with new skills and ideas for strengthening English communication skills in their schools and classrooms.
2. Relevant to this, a US Embassy representative had already conducted classroom observations and interviews to selected teachers in the Division of Albay last February 19-20, 2019. These selected schools were visited in order to determine the Grade 4 teachers' best practices and challenges in promoting English fluency in the Philippines' primary school education curriculum.
3. The next step is to enjoin all Grade 4 teachers who are currently teaching English, Mathematics and Science to participate in answering the online survey at <http://deped.in/KTPCIE> not later than **March 4, 2019**. All division supervisors in English, Science and Mathematics are instructed to monitor the compliance of the Grade 4 teachers in answering the online survey.
4. Moreover, the Schools Divisions are requested to nominate names of Grade 4 teachers, preferably Teacher III or Master Teachers, 50 years old or below, who are teaching English, Science or Mathematics subjects. They should exhibit enthusiasm to learn and expand their professional horizons, and have excellent command of the English language. Those selected will participate in a one-day workshop on March 26, 2019 (English), March 27, 2019 (Science), and March 28, 2019 (Mathematics), in a venue to be announced later. The slots per division, together with the nomination form, are indicated in the attached enclosure.
5. As a culminating activity, a conference is set in April, 2019 to gather select number of teachers (in English, Science and Mathematics) who have participated during the regional workshop.
6. For immediate dissemination and strict compliance.
