We're hosting an exclusive webinar this coming April 24 for the Philippines!

Are you intrigued by the prospect of learning better techniques to Laser Cutting/Engraving? This webinar will help you master Trotec's Run on Ruby Software! Are you curious about Direct Ink Writing Technology of Additive Manufacturing?

Sign up for our LIVE webinar with guest speakers from Austria and Canada happening on **April 24th, 10am - 12nn!**

In this webinar, Franz Gruber, the regional Director of Trotec, will personally provide a practical, hands-on approach to one of the industry's most innovative Laser software, Run on Ruby. Learn how the innovative features of Trotec's latest software can revolutionize efficiency and quality in laser cutting processes both for manufacturing, professional and even in education realm. Get a deep dive exploration on Trotec Run on Ruby software's powerful features!

Katarina Ilic, Co-founder of Voltera, will showcase the cutting-edge technology to enable printing on any surface through Direct Ink Write Extrusion Technology. If you're a researcher, an engineer, a professor or educator, this one is for you! Voltera's Direct Ink Writing Technology will set the standard of benchmark for prototyping and research and development now and beyond!

We'll also provide:

- Certification of Attendance
- An overview of current trends and technologies in the Digital Fabrication space
- A short discussion of the overall topics/Q&A

We'll guide you through every stage of these topics, providing you with valuable insights to enhance your production, research and development efforts while minimizing costs.

Sign up now! Webinar slots are limited and are on a first-come; first-served basis.
