Dir. Gilbert T. Sadsad
Regional Director, Bicol Region
Department of Education

Dear Director Sadsad:

Greetings in the name of empowering the Philippine Education!

In response to the Department of Education's concerted efforts to improve teaching quality in schools to enhance proficiency levels in mathematics, reading, and science in the recent Programme for International Student Assessment (PISA), the Center for Human Research and Development Foundation (CHRDF) Inc. prepared programs geared towards improving student learning outcomes through imparting research-based teaching practices and developing higher-order thinking skills for students through instructional strategies and authentic assessments. This endeavor is in full support of the current implementation of the revised K-10 MATATAG curriculum that you spearheaded to address the emerging challenges in basic education. We organized professional development programs that aim to strengthen the role of teachers as part of the curriculum support system through systematic and effective instructional planning, contextualization of lessons, and the use of an interdisciplinary approach to create authentic assessments.

We organized face to face trainings for teaching personnel entitled **National Training Program on Strategies Promoting Higher Order Thinking in K12 Education with Teaching Demonstration** on April 5-7, 2024 Sorsogon State University Main Campus, Sorsogon City and **National Training Program on Integrated Assessment, Values Integration and Promoting Literacy and Numeracy Skills with Teaching Demonstration** on April 12-14, 2024 in Naga City, Camarines Sur.

Program rationale:

This training program revolves around the role of teachers in ensuring pedagogically sound instruction and assessment in the classroom. Regardless of the teacher's area of expertise, they are expected to manifest competencies that will address the diverse needs of the learners. Through the help of teacher-leaders in various educational settings, the sessions will help teacher-participants to affirm, to enhance and to further develop their own teaching practices through reflective practice in teaching.

The teacher-participants are expected to:

1. Practice reflective-teaching by being critical on their teaching practices such as instructional planning, delivery of instruction and conduct of student assessments.
2. Provide an opportunity for the participants to strengthen their understanding of the competencies to effectively implement the curriculum.
3. Gain in-depth understanding of evidence-based teaching practices for K12 Education like constructive alignment by unpacking the performance and content standards.
4. Develop and apply competencies expressed in DepEd PPST in specific areas of content knowledge pedagogy, curriculum and planning, assessment and reporting.
5. Benchmark from teachers, researchers, and scholars to discuss and share their experiences and research-based findings in all areas appropriate teaching strategies.
6. Improve teaching practices by simulating instructional strategies and different types of Learner-centered assessments.

- Facilitate as premier interdisciplinary forum for academics, practitioners, and educators to present and discuss the most recent advances, trends, concerns, practical difficulties encountered, and solutions implemented in interdisciplinary research.
