- 1. Per LIS Advisory dated September 15, 2020, Basic Information and Rationale to the Minor Adjustment in the Learner Information System (LIS) BOSY 2020-2021, the BOSY facility was deployed ahead of the opening of classes, the date of first attendance will no longer be needed. Instead, this will be replaced by the date of official enrollment (DOOE). The DOOE is the date when the teacher confirmed (i.e. through phone call etc.) the learner's enrollment with the parent/guardian or the adult learner after the initial enrollment through the LESF submission. Learners who submitted the LESF but later decided to (1) enroll in another school or (2) will no longer enroll in the coming school year will not be enrolled through the LIS BOSY facility.
- 2. In this regard, the Division of Catanduanes Alternative Learning System advise all District ALS Coordinators, ALS Mobile Teachers and Barangay Literacy Volunteers to submit actual list of learners using the attached AF3 template to be submitted to the Education Program Specialist II for ALS assigned in their area and ALS learner's documents will be validated thru online or face to face to the low risk area of COVID 19 as reference in activating LIS Account for SY 2020-2021. NO List of Learners with ALS Documents, NO ACTIVATION of LIS Account.
- 3. Previous learner's PIS & FLT scores can be utilized for this school year considering the pandemic situation but newly enrolled learners should undergo these assessments to be conducted by the ALS teacher thru online or face to face to the low risk area observing health protocol.
- 4. New Barangay Literacy Volunteers are required to submit the following data for creating LIS Account:

First Name:

Middle Name:

Last Name:

Extn Name:

Birthdate:

TIN:

- Attached is the LIS Advisory.
- For your information and compliance.

ADVISORY

September 15, 2020

Basic Instruction and Rationale to the Minor Adjustment in the Learner Information System (LIS) BOSY 2020-2021

- Deployment of the BOSY facility prior to the actual opening of classes
 In support of the Basic Education Learning Continuity Plan (BE-LCP), securing advance
 information of enrolment data and actual modality/ies being offered per school will help each
 level of governance in preparing and adjusting to the needs of the schools in the new normal.
 Further, this will help in planning and formulating solutions to any potential implementation
 issues.
- 2. Date of Official Enrollment (DOOE).
 Since the BOSY facility was deployed ahead of the opening of classes, the date of first attendance will no longer be needed. Instead, this will be replaced by the date of official enrollment (DOOE). The DOOE is the date when the teacher confirmed (i.e. through phone call etc) the learner's enrollment with the parent/guardian or the adult learner after the initial enrollment through the LESF submission. Learners who submitted the LESF but later decided to (1) enroll in another school or (2) will no longer enroll in the coming school year will not be enrolled through the LIS BOSY facility.
- 3. Transfer of learner to another school after date of official enrollment was encoded The existing transfer facility will handle the transfer transaction. As per the usual transfer transaction, the actual date of confirmation of transfer/enrollment is required. The date of each transaction shall be sequential.
- 4. Generation of School Form 1, School Form 2 (attendance) and School Form 5 (promotion)

Adjusted SF 1 is now available for download.

Adjusted SF 2 will be available for download beginning October 5, 2020 (tentatively).

Adjusted SF 5 -For Kinder to Grade 10 will be available during the EoSY

-For SHS will be available on December 2020

- 5. Dashboard for monitoring of Enrolment with Modality will become available soon.
- 6. Additional data/information will be collected such as:
 - a. Modality (available)
 - b. Country of Citizenship (available)
 - Zip Code and permanent address of learner (for deployment)
 - Tagging of LESF data for incoming Kindergarten, Balik Aral, and other learners who are not yet LESF-tagged (for deployment)
