PROJECT BRIEF

Professional Learning Packages (PLPs) for Mathematics, Science and English/Reading for Teachers in Grades 7 and 8, and Grades 9 and 10

FEATURES OF THE PLPs

- Address PPST indicators 1.5.2 and 1.5.3, PPSSH indicator 3.2.2, and PPSS indicator 3.4.2.
- Advocate different learning approaches and modalities through distance and blended (multi-modal) learning
- Suitable for Learning Action Cells (LAC), online presentations, classroom applications and mentoring
- Accessible online and offline

Overview

The Philippines, for the first time in 2018, took part in the Programme for International Student Assessment (PISA). It is an assessment that measures 15-year-olds' ability to use their higher-order thinking skills (HOTS) in Reading, Mathematics and Science to meet real-life challenges. Of the 79 countries that participated in the PISA, the Philippines was ranked last in Reading and second last in Mathematics and Science. These results suggest that most Filipino students are not ready for life after school.

These areas of learners' poor performance were interestingly identified in an analysis of teachers' performance in the Teacher Development Needs Study (TDNS, 2014). The poor assessment results for Filipino learners, therefore, necessitate a reform initiative directed at supporting the strengthening of teachers' subject knowledge and pedagogy to improve learner performance. To assist in this reform initiative, the National Educators Academy of the Philippines (NEAP) and the Research Center for Teacher Quality (RCTQ) collaborate to develop Professional Learning Packages (PLPs) in Mathematics, Science, and English/Reading for teachers in grades 7 and 8, and grades 9 and 10.

The PLPs will (i) have a theoretical focus on the Structure of the Observed Learning Outcome (SOLO) model by Biggs and Collis (1982); (ii) address the appropriate indicators in the Philippine Professional Standards for Teachers (PPST), the Philippine Professional Standards for Supervisors (PPSSH), and the Philippine Professional Standards for School Heads (PPSS); and (iii) support the development and application of collaborative expertise in teachers, master teachers and school heads to underpin their own development through the Learning Action Cells (LAC).

What benefits can target users get from the project?

The PLPs will

- support teachers in understanding HOTS and in reflecting these skills in their respective classroom practices through the development of HOTS items/questions for Science, Mathematics, and English/Reading subjects;
- help teachers in performing pedagogy and assessment practices that promote HOTS; and
- guide master teachers and school leaders in their mentoring roles in schools with a focus on helping beginning teachers.
