

In compliance with DepEd Order (DO) No. 8, s. 2013,
this advisory is issued not for endorsement per DO 28, s. 2001,
but only for the information of DepEd officials,
personnel/staff, as well as the concerned public.

**INVITATION OF EX.EL SCIENCE EXHIBIT EVENTS ORGANIZING SERVICES FOR
THE SCIENCE EXHIBIT ON TOUR**

The Ex.el Science Exhibit Events Organizing Services is inviting participants for
their interactive science exhibit on tour from June 2025 until April 2026.

Attached is the basic communication relative to their proposal and the details of
the activity.

Participation to this event of learners and teachers from public and private
schools shall be purely voluntary and will not hamper instructional time in compliance
with the provisions of DepEd Order (DO) No. 022, s. 2023 titled Implementing
Guidelines on the School Calendar and Activities for the School Year 2023-2024 and
DO 9, s. 2005 titled Instituting Measures to Increase Engaged Time-on-Task and
Ensuring Compliance Therewith and the policy on off-campus activities stated in DO
66, s. 2017.

This is also subject to the no-collection policy as stated in Section 3 of Republic
Act No. 5546 also known as An Act Prohibiting the Sale of Tickets and/or the Collection
of Contributions for Whatever Project or Purpose from Students and Teachers of Public
and Private Schools, Colleges, and Universities (Ganzon Law).

GILBERT T. SADSAD
Regional Director
DEPED Region V Bicol

Dear Director Sadsad,

Greetings of prosperity!

Ex.el Science Exhibit Events Organizing Services is a group of Professional Educational Events Coordinator, Organizer and Exhibitor whose aim is to provide a more effective and enjoyable way of transmitting knowledge to its clientele. The group is well exposed to the various facet of education that will surely and productively guarantee total quality LEARNING.

For this season Ex.el Science Exhibit Events Organizing Services will be bringing in your Region, the **MOST INTERACTIVE SCIENCE EXHIBIT ON TOUR** with a Theme "Thirst for Knowledge: SCIENCE INTERACTIVE EXHIBIT ON TOUR", a Travelling exhibit launched in 2023 designed to reach out to students in every corner of the archipelago, delivering exciting science exhibits to students and teachers.

Ex.el Science Exhibit, "THIRST FOR KNOWLEDGE" have reached thousands elementary, junior and senior high school and college students toured to various regions throughout the country, including impoverished areas. With the mission of bringing the fun science to the classroom, the exhibits will be able to create a learning environment where science concepts are discovered in an entertaining way and imagination can capture the hearts of young minds and can develop the students' ability to evaluate simple to complex societal problems and be responsive and active in formulation of its solution.

CURRICULUM GUIDE

Primary
(Kinder to Grade 3)

Social and Emotional Development

Thirst for Knowledge offers interactive experiment sessions for the students to discover and re discover themselves while interacting with others. They will learn to recognize and respect individual differences through the collaboration of each team during the activities.

Thirst for Knowledge Educators facilitate carefully designed activities, they aid kids in expressing themselves, relating with their peers and appreciating other differences.

Physical Health and Motor Development

Thirst for Knowledge develop the child's physical and motor skills both fine and gross by allowing them to explore purposeful movements. We let them freely play in our different kiddie science gadget.

Cognitive Development

Thirst for Knowledge has (2) two hours exploration and enjoyment, students are given a walk-through of the featured science gadgets. They will able to gain knowledge on the different science invention's informative talks and wall infographics.

Multilingual Development

As they interact with others the students will develop their communication skills; they will expand their vocabulary by discovering new words for familiar objects. They will learn new terms and even practice basic reading and writing.

Creative Development

Thirst for Knowledge Science Entertainment is part of the program inside our science on tour area that offers a diverse mix of opportunities where kids can express themselves in various aesthetic ways. Whether through visual art, music

Learning

or movement, thirst for knowledge is a place where interests are explored, talents are honed and abilities are unleashed.

Mathematics

Thirst for Knowledge Exhibits students can able to describe and compare 2- and 3- dimensional objects, manipulate and classify them based on their properties and measure them in creative ways.

Health

Thirst for Knowledge Educators teach students to sanitize or wash their hands and learn the importance of keeping the body clean, understanding the responsibility of one's health and safety. They develop character qualities like grit and leadership as they cheer other on and persevere throughout a challenging task.

Science

Thirst for Knowledge On Tour concepts such as matter and force are explored everywhere as students take on activities that make them aware of the movement and positions of persons and objects. They are further immersed in other concepts like basic ecology, human life, animalandia and the magic of science thru optical illusions etc. students are able to tap into their curiosity and scientific literacy in a hands-on and engaging manner.

Intermediate (Grade 4 to Grade 6)

Language

Thirst for Knowledge On Tour, students can actively participate and employ appropriate verbal and non verbal communication, take careful note of instructions and information given to them and relate their experiences in different gadgets to their personal experiences. Student also communicate important information about a certain gadgets, share their opinions about it, and give quick demos.

Experience...

EXPAND...

Learning

Thirst for knowledge Educators always begin with a discussion. Throughout this discussion, students are encouraged to ask and respond to questions and share their thoughts or experiences.

Art

During their exploration inside the science exhibit on tour students will learn new shades of color such as pastel and neon. Students will enjoy experiments on colors and its combination.

Health

In Thirst for Knowledge one of the exhibits is all about human life-safety is a priority. The students will learn basic first aid for common injuries and when needed and respond to simulated emergencies. Students become a leader and be responsible in all ways.

Mathematics

In unique ways, learning Math is brought out of the classroom and into practical situations. In one of the exhibit - The Human Life, students practice on how to measure body temperature using thermometers and realize how medical tools such as these provide important information to those who use them. The students will not only engages their numeracy, but also their persistence and critical thinking skills.

Science

Students often wonder how things are made, there are several places to spark and fuel that curiosity. There are several ways in which students encounter scientific concepts and principles, one such way is when they are consistently expected to follow health and safety rules like proper handling of exhibits. Throughout the endeavor, they must use their adaptability and critical thinking skills to succeed.
