13. Naisasalin (transcode) nang pasulat ang mga impormasyong ipinahihiwatig ng mga grapikong pantulong sa teksto

MATHEMATICS

1. Subtract dissimilar fractions
2. Multiply mixed form by a fraction
3. Solve 1-step word problem involving addition of fractions
4. Identify congruent polygons
5. Solve word problems involving body temperature
6. Interpret data presented in a line graph
7. Read and interpret reading from - electric meter/water meter
8. Solve word problems involving measurement of surface area - triangles
9. Solve word problems involving measurement of surface area - trapezoid
10. Solve word problems involving measurement of solids - prism
11. Add dissimilar fractions in mixed forms with regrouping
12. Subtract dissimilar fractions in mixed forms with regrouping
13. Solve 1 to 3-step word problems involving addition and subtraction of decimals including money
14. Solve word problems with proportions
15. Solve word problems involving finding the percentage
16. Solve word problems involving finding the rate
17. Read and interpret data presented in a circle graph

ENGLISH

1. Use verbs in the simple present tense
2. Use adverbs of manner
3. Use reflexive pronouns
4. Identify the simple sentence
5. Note details in the selection
6. Predict outcome based on the selection
7. Infer general mood of the selection
8. Sequence events in the selection
9. Use verb that agrees with the noun in number
10. Use the degrees of comparison of adverbs

ENGLISH (cont...)

11. Use degrees of comparison of irregular adjectives
12. Use adjectives in series
13. Use preposition/prepositional phrase
14. Get the main idea/theme of a selection
15. Determine cause and effect relationship in a given selection
16. Draw conclusion based on information given
17. Identify supporting details to justify a conclusion
18. Distinguish fact from opinion

SCIENCE

1. Identify the major parts of male or female reproductive system/and their functions
2. Explain how the respiratory system works
3. Identify parts of the urinary system and their function using the diagram
4. Classify vertebrates into : mammals, birds, reptiles, amphibians, or fishes
5. Describe characteristics that enable animals to survive in an environment
6. Describe characteristics of different kinds of plants
7. Differentiate physical from chemical changes/processes by giving examples
8. Describe the distinctive characteristics of planets in the solar system
9. Identify major parts of the nervous system and their functions
10. Identify major parts of the circulatory system and their functions
11. Present through a diagram the feeding interrelationship among living organisms
12. Illustrate the interdependence of plants and animals for gases through the oxygen-carbon dioxide cycle
13. Explain the effects of change in materials on health and the environment
14. Identify energy forms and their uses
15. Identify factors that affect the motion of an object
16. Describe characteristics of the earth's interior layers
17. Describe characteristics of stars and how group of stars are useful to people

HeKaSi

1. Naipagmamalaki ang kinalalagyan at katangiang pisikal ng Pilipinas
2. Nabibigyang halaga ang pagbabagong naganap sa pamumuhay ng mga Plipino sa Panahon ng mga Español
