As part of its efforts in creating accessible information online, the Department of Education (DepEd) is planning to host all of its regional websites within DepEd's servers. The roll-out plan will be done in coordination with the Regional Information Officers (RIOs) and Information Technology Officers (ITOs) to ensure a smooth migration of the websites to the servers.

A designated team is currently executing the necessary preparations for all regional websites' migration later on. The team is also closely coordinating with the RIOs and ITOs of the regions.

In light of this, all field offices and schools are hereby requested not to engage with any third-party website developers, programmers, domain name registrars, and website hosting providers.

For immediate action.
