**SUBJECT:** Daily Updating of Learners' Vaccination Status

**DATE:** 07 February 2022

In line with the Department of Education's effort to reintroduce face-to-face classes in basic education, and in support to national government's vaccination drive for learners, a tagging facility for COVID-19 learner vaccination has been recently deployed in the Learner Information System. The tagging facility was designed to collect learners' vaccination data and monitor the progress of vaccination.

In line with this, all LIS coordinators are directed to regularly update and encode the learners' information regarding their vaccination status. Regional and Division Planning Officers are enjoined to monitor and provide technical assistance to school with challenges on encoding. We are monitoring these data for the implementation of the limited face-to-face classes.

For immediate dissemination and strict compliance.
