Program rationale:

This training program revolves around the NEAP recognized program on effective curriculum implementation which focuses on the role of teachers in ensuring pedagogically sound instruction and assessment in the classroom. Regardless of the teacher's area of expertise, they are expected to manifest competencies that will address the diverse needs of the learners. Through the help of teacher-leaders in various educational settings, the sessions will help teacher-participants to affirm, to enhance and to further develop their own teaching practices through reflective practice in teaching.

The teacher-participants are expected to:

1. Practice reflective-teaching by being critical on their teaching practices such as instructional planning, delivery of instruction and conduct of student assessments.
